

# MAT PUB

Couleur

**Mat Pub** is a very covering and pigmented acrylic paint offering a great comfort of application: smooth and homogeneous rendering without brush marks and without rework. The colors apply and resist on most of the supports even extreme, clean or correctly prepared.

## Advice before use :

- Mix or shake the product well before use to homogenize the colour

## Preparation of the supports :

- Substrates must be dry and clean before application. It is recommended to clean the surfaces with appropriate mechanical or chemical means in order to eliminate dirt and unstable parts that could disturb the adhesion of the paint

## Supports :

- Suitable for different types of supports: paper, canvas, wood, metal, facade, calico, wall supports...
- Holds outdoors (recommended for vertical surfaces outdoors where there is no standing water)

## Opening of the 500ml jar :

Pull the tab

1. Continue to pull by turning the jar
2. Clean the lid
3. Detach the lid

## Application materials :

- Colors can be applied with brush, brush, roller, sponge, stencil, knife or other tools, poured or dropped directly from the jar

## Techniques :

- Very versatile paint that is suitable for all types of artistic and graphic exercises: solids, backgrounds, washes, dripping, volume overlays, drawings, ...
- Airbrush use is possible by diluting the color about 50% with water, to obtain a milk consistency while maintaining the color

## Miscibility with other Pebeo products :

- Matte Pub colors can be mixed with all Studio and Artist Acrylics auxiliary products to prepare your surface, add texture to your project, modify the texture of the Matte Pub paint and protect your work once finished.

Paints can also be mixed with other types of acrylics such as Pebeo Studio and Pebeo Artist Acrylics to obtain the desired consistency and shade.
